## COMMERCIAL SWIMMING POOL PAINTING SERVICES

For over thirty (30) years, **D.P.J. Coating Systems** have provided a complete supply and /or full application services Australia-wide to city councils, schools, resorts and other commercial swimming pool owners / managers.

We are specialists in the preparation & application of heavy duty, industrial coatings - so we can provide you with the best advice, whether you wish to purchase and apply the materials yourself, or you require a detailed quotation for us to prepare & apply the coatings for you.

Your choice to have **D.P.J. Coating Systems** carry-out the swimming pool re-painting works, offers the following unique advantages over other swimming pool painting contractors –

-  **TOTAL GUARANTEE**  
(Our guarantee uniquely covers all materials, preparation & application)
-  **SPECIALISED & EXPERIENCED ADVICE**
-  **NO SUB-CONTRACTORS USED TO APPLY COATINGS**  
(Our experienced team of applicators exclusively will apply the LUXAPOOL®.)

Added to this, we apply & exclusively recommend the **LUXAPOOL®** range of high build, two component epoxy coatings, which offer the following benefits:

-  **LOW TEMPERATURE CURE**  
(Cures down to 10°C – special low temperature/ winter grade hardener / ideal for coatings application in early autumn & spring)
-  **QUICK CURE - LESS DOWNTIME / CLOSURE REQUIRED**  
(Pools can be re-filled within 96 hrs @ 20 - 25°C – less revenue loss/ inconvenience)
-  **HIGH BUILD EPOXY (95%+ solids) = EXTRA LONGER LIFE**  
(Up to 250 microns / 0.25mm per coat (two (2) coats minimum recommended)  
– Outstanding long-term wear resistance in heavy traffic public pool areas.  
– Re-coating only usually required every five (5) –six (6) years for commercial pools.
-  **20 + STANDARD COLOURS** (refer to LUXAPOOL® colour card)
-  **AVAILABLE IN SMALL PACK SIZES.**  
(Ideal for murals, safety signs / pictographs, lane-lines, etc....)
-  **TRIED & PROVEN AQUATIC ENVIRONMENT COATINGS.**  
(Manufactured in Australia since 1959)
